

Covid-19

Out of an abundance of caution, Valley Nursing and Rehabilitation Center is restricting all admittance of all persons other than our facility employees and required medical personnel, unless absolutely necessary. Our entryway doors will be locked and signs posted indicating no unnecessary entry. We are actively screening all individuals who are required to come into our facility.

We are staying current with the evolving recommendations from the CDC and regulatory agency guidelines. It is our priority to ensure that our residents are cared for in as safe of an environment as possible. To do this, we must implement these highly precautionary measures at this time.

We understand that connecting with your loved ones is incredibly important, and there are a variety of other ways you might consider communicating with them. These may include telephone, email, text, skype, facetime, or social media. You may contact us at 828 632-8146 if we can help you connect with a resident.

With heightened awareness and the rapid pace associated with COVID-19, we will continue to provide updates as further information available. For additional information, please visit the CDC's coronavirus disease information page <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

Sincerely,

Sandra Loftin
